

# Miraflex Membrane C

Two-component, polymer-modified, highly flexible cementitious waterproofing

## Don't replace it – Miracote It!

Applied in two or more coats by trowel, squeegee, roller, brush or spray equipment to a minimal thickness of 1/16" depending on exposure conditions, **MiraFlex Membrane C** provides superior waterproofing protection that will withstand exposure to chlorides, sulfates, UV, abrasion, impact, hydrostatic pressure and freeze thaw cycling. Available in a natural gray and white powder blends, **MiraFlex Membrane C** can be integrally colored with Miracote ColorPax LIP pigment packs in a wide range of color choices.

**MiraFlex Membrane C** can also be sealed and/or topcoated with a wide range of scientifically superior acrylic, and polymeric sealer and protective coating technologies from Crossfield Products Corp.
